Office 253-815-3038 (PT/intern at World Vision, typ Tue-Thur)

GIS Geographic Analyst

Position I Am Seeking: Helping nonprofits, ministries, public health agencies, firms use geographic analysis to inform decisions and increase performance. GIS = geographic information systems: not just mapmaking but map analysis. For ministries needing limited amounts of GIS, I can volunteer or temp/contract.

Background, Experience, & Education : IOC version, details soon:

- * Intern, World Vision, Domestic Disaster Response: introducing GIS capability to guide disaster-recovery efforts by identifying vulnerable populations and matching resource deployment.
- * Environmental and construction permitting, both as applicant and regulator
- * Some database design/administration experience
- * BS Biochemistry
- * Worship lighting tech at my church
- * Involved in pro-family and public policy issues
- * Interested in relief and long-term development work
