Piano and strings teacher/music arranger

Position I Am Seeking: Music teacher/arranger: My ministry is arranging music for the string players at Overlake Christian Church. For work I teach private piano and string instrument lessons. I work mainly with children, but have also taught adults. Kids learn at their own pace and enjoy it so much that parents tell me they never have to coax their kids to practice. They do it on their own. I enjoy seeing them progress each week as they master each lesson usually on a weekly basis. I teach out of my home in Kirkland, Washington.

Background, Experience, & Education : B.A. in Music Theory & Literature with emphasis on music composition at Seattle Pacific University. Have been teaching piano for 14 or 15 years now. I've been playing cello with Eastside Symphony for 8 years or so. Also play on the worship team at Overlake when they use the string players. I use the Finale Software program in my work: data entry from a T-3 Keyboard.
