Position I Am Seeking: Coffee Shop Barista.

I am looking for a full time job in a coffee shop or coffee roaster company. Ideally I would like to work for a small family owned business. However, because of the difficulty of finding work nowadays, I will do my best work even if hired at large franchise. I just simply love working around coffee and people who appreciate coffee.

Background, Experience, & Education :

I have worked for one coffee house in the past, The Coffee Bean and Tea Leaf, so I have experience in the food services business, which includes preparing and handling food. I know how to brew espresso and mix drinks and use the appliances and tools used to create coffee and non coffee based beverages, included tea, extract, and cream based beverages. I know the importance of keeping a food and beverage area/facility clean and operating smoothly.
