don't own a tux, see  
Lynn)

#### Good Friday Service

April 2, 7:00 PM  
Anthem: “He Was  
Wounded” & “Were  
You There?”

WAITING, TRUSTING, AND HOPING are intricately connected, like golden strands interwoven to form a strong chain. Trusting is the central strand, because it is the response from My children that I desire the most. Waiting and hoping embellish the central strand and strengthen the chain that connects you to Me. Waiting for Me to work, with your eyes on Me, is evidence that you really do trust Me. If you mouth the words “I trust You” while anxiously trying to make things go your way, your words ring hollow. Hoping is future-directed, connecting you to your inheritance in heaven. However, the benefits of hope fall fully on you in the present.

Because you are Mine, you don't just pass time in your waiting. You can wait expectantly, in hopeful trust. Keep your “antennae” out to pick up even the faintest glimmer of My Presence.

John 14:11; Psalm 27:14; Hebrews 6:18-20

### PLEASE NOTE—THIS IS IMPORTANT!

The “choir door” must be locked at all times, and we have gotten careless about keeping it locked. Consequently, starting next week, everyone using that door on Sunday mornings and Wednesday nights needs to use the code. The code is: **554387**. You punch in the code on the keypad by the door and the door will open for a few seconds to let you in. This code works only during normal operating hours (7 AM to 10 PM). It does not work when the church is closed for holidays, etc. You can also use any foyer door to enter the building—no code needed. Please don't share this code with your family or friends or put it on your facebook page!!☺ Put the code in your wallet or some secure location that you'll remember!

Tickets are still available at <https://tickets.washingtoncenter.org/Online/> or at [www.MCE.org](http://www.MCE.org) for the A Cappella Harmony Sweepstakes that Crosspoint and the Vocal Band are performing in on March 13. See & hear Crosspoint, The Vocal Band and Dave McEwen's micosoft group “The Baudboys” in concert Tues., Mar. 9 at 7 PM in the sanctuary—it's free!

Wednesday dinner,  
6 PM, Atrium.  
\$5/person or  
\$10/family.

# PRAYER REQUESTS

**Laurey & Patty's granddaughter, Hannah Marriott (age 5)**—continue to pray for restoration of lost vision in her left eye; she's undergoing treatment with corrective lenses and an eye patch and things are improving.

**Marlene Flagel's family**—her **nephew & his wife, Eric & Shanda**, they given 2 more months by the judge because they hadn't finished parenting classes which they volunteered for in the first place. They get to see the kids 3 hrs. a week. **Marlene's niece, Eric's sister, Heather, & husband, Scott**—they are struggling. Heather will have a c section on the 9<sup>th</sup>, if baby Aaron waits until then. The baby is taking everything from her system so she has no energy & is not feeling good. Her blood pressure continues to be too high. Scott is now having 3 different chemo's & has been very sick. He has Cerebral Palsy so the chemo is making his pain worse. Meds are helping with that. The 3 boys are very worried about their daddy being sick so they got their heads shaved to look like their dad.

**Linda Anderson's new grandson's**—the babies were born Feb. 27 and at last report were doing well

**Louise Walker's granddaughter, Jaden**—she has passed all the tests with flying colors and doing well as is mom. Pray for the family as they adjust to a new baby and a new house! Grandma will be back in choir next Wednesday. For pictures: <http://teamfletemeyer.blogspot.com/>

**Joyce Hensen's step-father, Clem**—continue to pray that the cause of the internal bleeding can be found and treated

**Anita Santoyo's sister, Cherrie**—she is being treated for cancer and has been doing well until this last week, when she had a turn for the worse. Pray for healing and strength for the family.

**Choir members on the sick list: Linda Anderson**—bad cold that's hanging on

**Eames Family**—from **Linda**: "I have a most wonderful praise to God and a huge thank you for all your prayers for our family. I had an emergency cat scan (new U.W. GI Dr.) to figure out all these pancreatitis episodes. The praise is that my tumor has NOT grown in four months! The next cat scan will be in April and then it will be determined if I should go ahead with surgery or not in May. The cat scan did reveal that the tumor is causing my pancreatitis episodes, but I'm taking pancreatic enzymes which are helping a lot."

**Sarah** has just been diagnosed with another autoimmune disease called Graves Hyperthyroid. Please pray that her levels go back to normal or at least close to normal. The medicine to treat this is very toxic with bad side effects. Sarah, as a teenager, is emotionally having a difficult time accepting this in her life. The myasthenia gravis has been hard enough for her to accept. Thanks so much for your understanding and prayers for Sarah.

**Lona Peterson's sister-in-law, Sharon**—was trampled by a horse; she is much improved; continue to pray for a full recovery.

**JoLee Robinson**—she has been suffering with a migraine since Sunday; pray for healing especially with Steve being away for military duty for the next 3 weeks.
