Job Title: Administrative

Position I Am Seeking: I am looking for clerical office work. I worked for Mission to Unreached Peoples here in Seattle for two years. I left last year because they did not have health insurance. I am sixty two, but with no physical handicaps. Any clerical position that will provide full time minimum wage will suffice.

Background, Experience, & Education : I am originally from Iran. I came back to the US in 1989. I have an engineering degree from UW, and an MBA from Seattle U. However, the only employment I have is with Mission to Unreached Peoples. I have had my own business which was building homes prior to that.

Please pray that God will provide the right job for me.

Thank you and God bless you too.
