Job Title: Intern/Staff Architect

Position I Am Seeking: I am an Intern Architect with three years of professional experience and a graduate of Philadelphia University School of Architecture. I began practicing architecture since I moved to the Seattle area after graduating with honors in 2007 - I was laid off in June of 2009 and have been aggressively seeking full-time employment since. I am currently studying for my ARE and LEED NC exams. Most of my experience is in housing projects at a wide range of scales from large mixed use apartment complexes, town homes, to single family homes and small residential remodels. My academic and professional work has given me experience in all phases of design from feasibility studies, early conceptual design to construction administration. I am also experienced with the LEED accreditation process and design review and permitting procedures. Attached please find my resume and contact me if my skills meet your needs at this time. Thank you for your time and consideration.

Background, Experience, & Education :

Professional Profile

Skilled intern architect with 3 years experience in urban infill housing ranging from single family homes to large mixed use projects. Knowledgeable in current design technology tools and sustainable design technologies. Experienced communicator, highly organized, multi-tasker and dynamic team player.
