Job Title: Computer/IT Specialist

Position I Am Seeking: I would like to work in a small to medium sized business environment, preferably a Christian environment. I am an "Out-of-the-box" thinker seeking a challenging opportunity that will utilize my Information Technology skills. I am always open to developing new skills and learn quickly. The ideal job opportunity location would be located in the north Eastside area as I live in the Kenmore/Bothell area, but it's an easy 15 minutes to Seattle.

Background, Experience, & Education : My skills are mostly technical computer related, i.e. PC installation, troubleshooting, networks, helpdesk, customer support. I ran my own computer consulting business full time for 6+ years. I'm very good and tenacious at finding solutions to problems. I have some website development experience, and can install and configure WordPress and CMS sites. I have a lot of experience with MS Office. Previous employers: Microsoft (5.5 yrs.), Catapult Software Training (2.3 years), with retail electronics experience (Computer City/Comp USA, Radio Shack). I've been in the computer industry for 20+ years, and have MCP and CNA certifications.
